

Comprehensive Plan Updates...

The Comprehensive Plan Committee, with the Tri-County Regional Planning Commission, is continuing to review the results of the Community Survey and is excited to combine that data with the results of the various activities that residents interacted with at the Open House on February 13th.

At the Open House, there was an opportunity for residents to distribute pretend money between some of the projects being considered by the Village. The intent of the activity is to communicate to the Village what projects would best fit the wants and needs of our residents.

The project that collected the most funds was the Pedestrian Bridge/Tunnel crossing Route 116. In second place was a walking/bike path connecting Germantown Hills and Metamora. The Pedestrian Bridge/Tunnel Project is in Phase 1 Engineering, while the Germantown Hills to Metamora walking/bike path is advancing through Phase 1 and Phase 2 Engineering.

Please continue to check back for more updates and you are always welcome to call the Village Hall with questions. 309-383-2209
