

Last year, the Village obtained grant funding and completed Phase 1 of Oak Grove Park, which includes a new trail segment, a parking lot, and a bench. The Village was recently awarded a grant to fund Phase 2, which will complete the half-mile trail loop, add a restroom, create a small dog park, and install a flashing crosswalk for safe crossing of Fandel Road.

The plan is to complete this work in summer 2026. Additional phases of park development will proceed as funding becomes available.
